NAICCO MISSION STATEMENT

We help today's businesses start, grow, and thrive in a complex and constantly changing macro environment by using technology. The mission of the Chamber is to improve the business climate by provide a networking platform for businesses & members.

We develop, promote, and advocate for business and diversity on the USA while encouraging the advancement and economic growth of the small business and minority community.

As a technology transformation chamber of commerce, National American and Indian Chamber Of Commerce (NAICCO) provides a platform for business owners to network and get them prepared for the digital age by combining the speed and insight of digital thinking.

NAICCO specializes in helping small businesses grow their business with the help of technology while facilitating the relationship between local businesses with government of US and India.

With multi industry business community members across USA, NAICCO is the leading chamber of commerce created for businesses owners to use technology as a medium to excel and reach out your customers across their globe. Grow your business using technology by becoming a NAICCO Member and get connected with the federal government and local government representative across USA and India.

NAICCO's process transformation services innovate at the intersection of business and technology to transform processes that realize our member's vision. We will help you improve your business potential and provide you a platform to flourish.

We can help you connect with right audience where you can jointly explore opportunities which will help you increase your business revenue. If you have an idea to scale your business, we can align the right technology for you to scale your business.
